

IFTAS

BANK ON CLOUD

IFTAS is India's leading Financial Technology on Cloud solution provider for Banks and Financial Institutions across India. It is a Section-8 non-profit organization established by **IDRBT** (RBI's research and development arm in banking technology).

Bank on Cloud is most trusted cloud platform for banks and financial institutions in India, focused on providing multiple solutions such as core banking and mobile banking. It is based on highly secured first of its kind financial vertical community cloud (Indian Banking Community Cloud - **IBCC**). IBCC is a state of the art platform that enables highly available and scalable business solutions.

Bank on Cloud enables you to avail software solutions as a service at almost no capex and at lower opex. It also enables, substantially reduced go-to-market for you.

You get business solution platform with all the benefits of cloud.

Our highly skilled and motivated team of technology experts ensure that we are there for you 24x7.

Turn this page to see what our **cKYC on Cloud** can do for you.

IFTAS
