

Sr. No	RFQ Page no	RFQ Clause no	Existing clause Details	Clarification Sought	IFTAS Response
1	26	Annexure-V: Technical Specifications of Vulnerability Management	The proposed solution shall be able to automatically pause scheduled scans if unable to complete within the predefined durations	The proposed solution shall be able to manually pause scheduled scans if unable to complete within the predefined durations	This clause stands to be modified as Optional.
2	26	Annexure-V: Technical Specifications of Vulnerability Management	The proposed solution must be able to perform discovery, vulnerability scanning, web scanning, and compliance assessment in a single scan.	Does Web Scanning indicates here Web Application Scanning? Kindly clarify	This clause stands to be modified as Optional.
3	26	Annexure-V: Technical Specifications of Vulnerability Management	The proposed solution must be able to provide information on how to develop exploit(s) to demonstrate and validate the vulnerability found.	The solution will provide the detailed CVE and CVSS id and how the attacker will exploit the system. Please clarify what does this mean by develop exploit	This clause stands to be modified as Optional.
4	26	Annexure-V: Technical Specifications of Vulnerability Management	The proposed solution must support identification and management of vulnerability exceptions. Exceptions should support an approval workflow.	The solution provides exceptions, but workflow is internal and depends on organisations to accept the vulnerability as a risk or no risk. Kindly remove the "approval workflow" clause and amend accordingly	This clause stands to be modified as Optional.
5	27	Annexure V point 14, page 27	The proposed solution must support command line console within web GUI.	Why a specific requirement to have the CLI within the GUI.	This clause stands to be modified as

Indian Financial Technology & Allied Services

Registered Office: NCC House, 4th Floor, Western Wing, Sy. No 64, Madhapur, Hyderabad-500081, Telangana

Corporate Office: Unit No.4, 3rd Floor, Times Square-Phase-D, IT Park, Tower D Andheri-Kurla Road, Andheri (East), Mumbai-400 059

				Please explain	Optional.
6	28	Annexure V point 27, page 28	The proposed solution shall be able to automatically pause scheduled scans if unable to complete within the predefined durations	No specofoc time can be defined while scanning, pausing a scan is a manual task. Request you kindly change the clause accordingly	Refer Response of Point 1
7	Web Scanning	88 - 95	Clarification on Points 88 - 95	Our solution provides Web Application Scanning (WAS) as a separate module and is a cloud offering. Please let us know your acceptance on the same. If else, we suggest you separate this from the current RFP. It would not be fair to evaluate the requirement based on one OEM's perspective.	This clause stands to be modified as Optional
8		Annexure V point 143, page 38	The proposed solution vendor must be PCI ASV, that able to execute with a set of security services and tools ("ASV scan solution") to conduct external vulnerability scanning services to validate adherence with the external scanning requirements of PCI DSS Requirement 11.2.2. The scanning vendor's ASV scan solution is tested and approved by PCI SSC before an ASV is added to PCI SSC's List of Approved Scanning Vendors.	PCI ASV is external scanning for external Ips. Tenable provides PCI ASV certification on cloud. Since this was also not discussed during POV and is a cloud offering from Tenable and the instance of cloud is not available in India. Reuest you to kindly remove it or allow the cloud offering	This clause stands to be modified as Optional. Bidders can provide additional information with respect to their solution
