

Sr. No.	Queries	IFTAS Response
1	Storage Capacity	As per RFP "100 Days Footage Backup"
2	Are you looking for Raid 5 redundancy.	Yes
3	Actual storage capacity	As per RFP "100 Days Footage Backup"
4	Any specific Make or Model.	Provided in the RFP
5	We assume that this NAS will be used to store CCTV data only.	Yes
6	30FPS is not possible with any camera in India, Maximum 25FPS can be supported.	Bidder can provide up to 4 MP Camera which can support 30FPS
7	On RAID configuration I8 project series NVR Supports RAID configuration but in your annexure 4SATA 16 Channel NVR mentioned for proposal.	Consider Raid Supported Model With Higher Capacity Drives.
8	For ESSL U have requested For recognition on both side in technical requirement but in annexure the qty mentioned is only one.	As per RFP "one set of 2 devices of ESSL both sides.
9	Required in detail about battery backup whether the EM lock should also work or only attendance should be possible in case of power failure	As per RFP
10	Also confirm what if the EFACEE 990 do not have speed of 1sec authentication & alternatively also confirm can be submit the proposal of latest model ESSL AI series devoice with faster face recognition capacity but do not support fingerprint.	As per RFP
11	· Need to understand sinology intergration.	"Synology is an existing NAS Storage device, the propsed solution should Integrate with NVR Device to store footages "
12	· HDD is not required?	Bidder to propose Appropriate solution to meet iftas requirment
13	· Use of Dual monitor.	Bidder to propose Appropriate solution to meet iftas requirment
14	Main Door: Access Control Attendance System (Face, Biometric & Card Recognition)	Bidder to propose Appropriate solution to meet iftas requirment
15	(a) Providing and Installing Access Control Door lock system :- Uface 302, FR1200, Em Lock, eTimeTrackLite Software.	Bidder to propose Appropriate solution to meet iftas requirment
16	(b) FAR : <= 0.0001 % / FRR : <= 1% :- BLANK	Bidder to propose Appropriate solution to meet iftas requirment
17	(c) Identification Speed:<=1 sec :-BLANK	Bidder to propose Appropriate solution to meet iftas requirment
18	(d) Inbuilt Battery Backup :- External Battery backup available	InBuilt
19	(e) Support Payroll/ERP/HRMS system :- We can share device raw data in specific table in MS Sql Database.	Any Database
20	(f) Anti-pass back door sensor, :- Need to update firmware in Uface302 for antipass back option.	Bidder to propose Appropriate solution to meet iftas requirment

21	(g) RFID, Face and fingerprint authentication on one side of the door and :- For Entry point- Uface302 DEVICE	Bidder to propose Appropriate solution to meet iftas requirment
22	(h) RFID and fingerprint authentication on other side of the door :- For Exit point- FR1200 READER	Bidder to propose Appropriate solution to meet iftas requirment
23	(i) Door lock Access control - Possible	As Per RFP
24	(j) Doorbell :- Need to understand	As Per RFP
25	(k) log software license :- Not available in essl	As Per RFP
26	(l) Data must be protected with Encryption Method :- Software data will be saved in ms sql database on clients pc.	As Per RFP
27	(m) 3 Year service support :- SI SCOPE	As Per RFP
28	2. Server Room: Biometric access control system (Sample Model: eSSL ICLOCK990)	As Per RFP
29	(a) Biometric access control system with fingerprint verification :- Possible	As Per RFP
30	(b) The biometric data must be treated as confidential and protected by encryption methods. :-In device, there is an admin access feature available. So only authorised person can open the device menu by their authentication.	As Per RFP
31	(c) FAR :<= 0.0001 % / FRR: <= 1% :-Possible	Bidder to propose Appropriate solution to meet iftas requirment
32	(d) Identification Speed:<=1 sec :-More than 1 sec	Bidder to propose Appropriate solution to meet iftas requirment
33	(e) Inbuilt Battery Backup :-External Battery backup	Bidder to propose Appropriate solution to meet iftas requirment
34	(f) Anti-passback :-Possible	Bidder to propose Appropriate solution to meet iftas requirment
35	(g) Door sensor :-Need to understand	Bidder to propose Appropriate solution to meet iftas requirment
36	(h) RFID ID :-Device supports rfid cards	Bidder to propose Appropriate solution to meet iftas requirment
37	(i) Finger print :-Device supports fingerprint	Bidder to propose Appropriate solution to meet iftas requirment
38	(j) Door lock Access control :- Possible	Bidder to propose Appropriate solution to meet iftas requirment
39	(k) Door bell :- 12V DC Bell (cells for power to bell) – Need to understand	Bidder to propose Appropriate solution to meet iftas requirment
40	Software- eTimeTrackLite web	Bidder to propose Appropriate solution to meet iftas requirment

41	Under the specifications of NVR it is not mentioned that it should be H.265 compatible (whereas camera asked for are H.265 compatible). Since a standard NVR will not be able to deliver H.265 compression functionality.	Bidder to propose Appropriate solution to meet iftas requirment
42	No specifications of NAS box storage are mentioned such as HDD space etc, which will affect the total bottom line value of the project.	As per RFP "100 Days Footage Backup"
